Reference: FCC Docket Nos 96-45, 98-171, 90-571, 92-237, 99-200, 95-116, 98-170  
and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I am a disabled young american with a fatal heart condition. I depend on my tracfone prepaid wireless plan for emergency medical response as I require it. It is imperative that I have a mode of communication when away from my landline phone that is inexpensive for me to afford being on goverment disability income and not able to work to afford a higher wireless service. Please do not raise the rates just to pad your own pockets when people like myself depend on this service to stay alive in cases like this. Thank you for your time and efforts to stop this.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Brenda Rouse
